DriveSafe 360 Workshop

Workshop Overview

This fast-paced and highly interactive thought provoking session is our flagship workshop.

The workshop covers a broad range of road safety topics with a fundamental focus on collision avoidance.

Delegates will analyse an animated collision involving four characters who meet each other in difficult circumstances.

The objective is for the delegates to identify how each individual character could have avoided the collision in the first instance.

Q&A session.

Logistics

Online Delivery

For online workshops our preferred option is to use Zoom or Teams.

In order to facilitate your workshop via our virtual classroom format all attending will need:

A Computer, Laptop or Tablet

(Mobile phones are not suitable to undertake the course due to the size of the screen but are required for the online voting and interaction element of this course.)

All devices must have:

- Internet access.
- Web camera.
- Microphone.
- Speakers or headphones.
- Stable internet connection.
- Enough battery charge for at least 3 hours.

In Person

For real-time classroom workshops, we request that clients confirm they have:

- A suitable room is available for up to 16 delegates.
- The ability to project onto a clear white wall.
- Internet access.
